Press Release & Bio

Press Release

Tusculum baseball has named Nic Doherty as its new Director of Baseball Operations and Data Analytics graduate assistant. She will oversee running software and data analysis, administering day-to-day operations, and assisting with recruiting.

Doherty comes to the program from Winchester, Virginia, where she taught math and statistics at both the middle school and high school levels. She coached baseball, swimming, and track and field.

She has also worked at two previous collegiate institutions, American University and Coastal Carolina University, where she earned her undergraduate degree in Applied Mathematics in 2018. Doherty also worked with the Coastal baseball team, building their analytics department.

Bio

Nic Doherty was named to the Tusculum baseball staff as a graduate assistant coach in August 2024. She serves as the Director of Baseball Operations and coordinates video and analytics.

Prior to coming to Tusculum, Doherty taught math and statistics at Spring Mills Middle School and Millbrook High School, where she coached baseball, swimming, and track and field.

Doherty graduated from Coastal Carolina in 2018 with a degree in Applied Mathematics. She won the Walt and Susan Patterson Prize for Outstanding Undergraduate Research for a presentation on the Schreier-Sims algorithm. She built the analytics program for Coastal baseball.

She is currently working toward a Master of Sport Management Degree.
